10190 Frasure Helber Rd.  
Logan, Ohio 43138

Attention: Mr. Dale Campbell  
President

Subject: Detroit Stoker Company  
Mecklenburg Cogeneration Project  
Clarksville, Virginia

Dear Mr. Campbell:

On Wednesday, February 24, 1993, Charlie Aycock, the Director of Projects for Duke/Fluor Daniel visited Detroit Stoker here in Monroe.

I thought you would like to hear that Duke/Fluor Daniel had their wind-up meeting on the Mecklenburg Cogeneration Project and in that meeting praise was given to Seneca Steel Erectors for their outstanding performance on this project. Both corporate and site personnel spoke very highly on Seneca's performance.

I, also, would like to say a special thanks for a job well done. Your performance does a lot to help our company to continue to do repeat business. Keep up the good work.

Very truly yours,

James W. Doyon  
VP Material Handling
